

DIVORCE STATISTICS

Divorce is a national epidemic with more than 1,000,000 divorces each year -- about 50% of the annual marriages! Estimates of how many first marriages end in divorce vary, but the divorce rate increases for each subsequent marriage. More than 75% of divorced people re-marry, and they often neglect to confront the issues that contributed to the failure of a previous marriage.

In Trumbull County, about 2,500 people experience the devastation of divorce each year, representing an annual average of 65 to 80 divorces for every 100 marriages! Thousands of others are deeply affected by divorce (i.e., children, parents, etc.), thereby elevating the tragedy from personal to the community at large.

GROWING THROUGH DIVORCE

Recovery from divorce requires dealing with deep and specific needs so that the fullness and joy of life can be restored. "You can GO through divorce, or you can GROW through it," says Jim Smoke, author of the popular and practical book - *Growing Through Divorce*.

The Workshop uses videos to introduce each weekly topic to all participants, and then breaks into small groups for confidential discussion of the material.

- The video series was made by one of the most successful workshops on divorce recovery in the country, having helped more than 13,000 people "grow through divorce" since 1981!
- The small group experience is rated by past participants as making the greatest contribution to their healing and growth.

No matter how close or distant the divorce experience is for you, you will find the video presentations, coupled with the mutual support and understanding of others dealing with similar issues, to be tremendously helpful in making one of life's most difficult adjustments.

Two Workshops are offered each year. If the timing of this Workshop is not right for you, please call for the dates of the next Workshop and ask to be added to our mailing list.

WHAT DO PAST PARTICIPANTS SAY?

"I found the sessions very worthwhile and reassuring. It helped me come to the realization that I was not the only one going through the divorce process. It's good to recognize that not everyone progresses through the various stages at the same pace and, for some, it takes longer to come away feeling better about yourself."

- Richard (Human Resource Specialist)

"I would encourage anyone to come to this Workshop."

- Bobbi Jo (Nurse)

"The Workshop helped me to see that my feelings were not unique -- many others were suffering also. But, there is hope and recovery, and we must go on with our lives. The encouragement from the Workshop was a BIG help!"

- Cliff (Factory Worker)

"From pain and devastation to hope, healing and growth."

- Katie (School Teacher)

"The Workshop brought me in touch with people who understood me, who helped me to lift my head up again. It helped me to open my eyes to see fully what I was going through, where I was going, and to put it all in perspective."

- Michael (Information Analyst)

"If you put effort into the Workshop, you will receive ten-fold back in personal growth and support."

- Bill (Human Resource Specialist)

"The Workshop helped me confront some of the feelings that I didn't want to acknowledge within myself. It helped me to assume more responsibility for my own thoughts, feelings and actions, rather than blaming someone else for them."

- Vickie (Chaplain)

"Go with an open mind and enjoy yourself!"

- Kathy (Secretary)

PROGRAM

Most workshops dealing with divorce recovery are set up so you can start the workshop at any time and attend only the sessions that interest you. The recovery process, unfortunately, is much more complex than just a few issues. A broader and deeper experience is needed for real growth.

This Workshop is designed to help you deal with the devastation and pain of divorce and to set you on a positive path toward the future. You should attend both the video and small group portions of all six sessions, if you want to achieve the maximum benefit from this Workshop.

The study guide for the Workshop is Jim Smoke's book, *Growing Through Divorce*.

The Workshop is designed for people who are adjusting to the finality of a broken marriage. It is not for people who have a desire and a realistic opportunity for reconciliation, for those suffering from a failed relationship outside of marriage, or for those coping with the loss of a spouse through death.
